# ClearPort™

A Clear Window Into Your Turn Process

On Time Performance should not be based on luck. Move beyond reporting, take action before the delay.

- Transparency on ALL PROCESSES of the turn
- Manage ALL milestones in real-time
- Set KPIs based on data-driven targets
- Lower carbon emissions
- Decrease turn times

Manage Unmet Aircraft as they happen. Achieve increased aircraft utilization and network efficiency.

Increase On Time Performance (OTP)

○ Understand the ROOT cause instead of finding blame after a delay.

Make Decisions In Real-Time

○ Live data allows you to focus your attention on milestones that can cause a delay prior to a delay happening.

Hold ALL Parties Accountable

○ Know ALL your milestones, including catering, grooming, bridge driving, to provide accountability to ALL parties involved in the turn.

○ Use newly available data to develop service level agreements that reward adherence to the process and avoid charge backs.

Save time and resources with minimal IT involvement needed to integrate.

Lower Carbon Emissions

○ By using alerts, make sure that you are turning off the APU when the conditions are right to save money and lower your carbon footprint.

Decrease Turn Times

○ Visibility into your turn allows you to find those spots where you can save valuable time on your turns without affecting your OTP.

Subject Matter Experts At Your Disposal

○ We provide full support throughout deployment and operation without involving your IT department.

Do you understand the root cause of your delays?

Be in the know. See more with ClearPort™.
